

CSF Editorial Board Members (2025-2026)

Editor-in-Chief

Michiyuki MATSUDA	Kyoto University and University of Yamanashi	Fluorescent imaging, Signal transduction
-------------------	--	--

Editor

Hiderou YOSHIDA	University of Hyogo	Life of proteins
Etsuko KIYOKAWA	Kanazawa Medical University	Cytoskeleton and cell motility
Tomohiko TAGUCHI	Tohoku University	Intracellular traffic and organelles
Junichi IKENOUCI	Kyushu University	Cell adhesion and extracellular matrix, cytoskeleton and cell motility

Associate Editor

Kazuhiro AOKI	Kyoto University	Signal transduction
Yasuyuki FUJITA	Kyoto University	Cell competition, cell-cell adhesions, cell-cell communication
Mitsunori FUKUDA	Tohoku University	Membrane traffic, small GTPase Rab, organelle
Mikio FURUSE	NIPS	Cell-cell junction, tight junction
Gohta GOSHIMA	Nagoya University	Cytoskeleton and cell motility
Satoshi GOTO	Rikkyo University	Intracellular traffic and organelles, Drosophila, development
Yoko HAMAZAKI	Kyoto University	Immunology
Tetsuya HIGASHIYAMA	University of Tokyo	Advanced technology, plant cell biology, reproduction, cell-cell communication
Koji IKEGAMI	Hiroshima University	Microtubule, cilia, flagella, imaging, genome editing
Naotada ISHIHARA	Osaka University	Intracellular traffic and organelles
Tohru ISHITANI	Osaka University	Signal transduction
Toshiki ITOH	Kobe University	Signal transduction
Masato KANEMAKI	NIG	Biotechnology, chromosome biology and cell cycle
Hiroyasu KIDOYA	University of Fukui	Cell growth, differentiation and death
Yuko KIYOSUE	Kansai Medical University	Cytoskeleton and cell motility
Hidetaka KOSAKO	Tokushima University	Advanced technology
Akiko KUMA	Osaka University	Intracellular traffic and organelles
Erina KURANAGA	Tohoku University and Kyoto University	Morphogenesis, cell migration, cell death
Kazuhiro MAESHIMA	NIG and SOKENDAI	Nuclei, chromosomes, chromatin
Noriyuki MATSUDA	Science Tokyo	Membrane traffic, organelles, and intracellular degradation
Hiroaki MIKI	Kyoto University	Signal transduction
Atsushi MOCHIZUKI	Kyoto University	Theoretical biology, mathematical biology, modeling
Fumio MOTEGI	Hokkaido University	Cell polarity, cytoskeleton, embryogenesis, gametogenesis, mechanobiology
Shigeo MURATA	University of Tokyo	Life of proteins
Fubito NAKATSU	Niigata University	Intracellular traffic and organelles
Kazuhisa NAKAYAMA	Kyoto University	Intracellular traffic and organelles
Yukako ODA	Kyoto University	Cell adhesion and extracellular matrix
Kazumasa OHASHI	Tohoku University	Cytoskeleton and cell motility
Yusuke OHBA	Hokkaido University	Signal transduction
Shizue OHSAWA	Nagoya University	Tissue growth regulation, cell death
Miho OHSUGI	University of Tokyo	Chromosome, cell division, nucleus
Chitose ONEYAMA	Aichi Cancer Center	Signal transduction, tyrosine kinase, extracellular vesicles, microRNA
Akiko SATO	Hiroshima University	Membrane traffic
Ken SATO	Gunma University	Intracellular traffic and organelles
Miyuki SATO	Gunma University	Intracellular traffic and organelles
Shiro SUETSUGU	NAIST	Cellular shaping and transport
Asako SUGIMOTO	Tohoku University	Chromosome and cytoskeleton
Hideki TAGUCHI	Science Tokyo	Life of proteins
Kenta TERAII	Tokushima University	Advanced technology, signal transduction, intravital fluorescence imaging, mice, intercellular communication
Fumiko TOYOSHIMA	Science Tokyo	Stem cell biology
Satoshi WAGURI	Fukushima Medical University	Intracellular traffic and organelles
Naoki WATANABE	Kyoto University	Cell motility, cytoskeleton, Imaging
Sawako YAMASHIRO	Kyoto University	Cytoskeleton, cell motility, mechanobiology

Editorial Board

Toshiya ENDO	Kyoto Sangyo University	Molecular cell biology, structural biology
Akihiro HARADA	Osaka University	Intracellular traffic and organelles
Tatsushi IGAKI	Kyoto University	Cell growth, differentiation and death
Naoko IMAMOTO	Jikei University of Health Care Sciences	Nucleocytoplasmic transport, nuclear pore complex, nuclear envelope, stress response
Kozo KAIBUCHI	Fujita Health University	Neuroscience, Signal transduction

Eisuke MEKADA	Jikei University of Health Care Sciences	Growth factor, extracellular matrix and bacteria toxin
Noboru MIZUSHIMA	University of Tokyo	Autophagy, lysosome, proteolysis
Kazutoshi MORI	Kyoto University	Life of proteins
Kazuhiro NAGATA	Biohistory Research Hall	Cell biology (Molecular chaperone, Proteostasis)
Akihiko NAKANO	RIKEN Center for Advanced Photonics and Science Tokyo	Membrane traffic, endoplasmic reticulum, Golgi apparatus, endosomes, live cell imaging
Hiroshi OHNO	RIKEN	Immunology, microbiology
Yasushi OKADA	RIKEN and University of Tokyo	Cytoskeleton, cell motility, advanced technology
Sachiko TSUKITA	Teikyo University	Epithelial barrier, tight junction
Yoshihiro YONEDA	BIKEN	Chromosome, nucleus, gene expression
Shigenobu YONEMURA	Tokushima University	Cell adhesion, extracellular matrix
Tamotsu YOSHIMORI	Osaka University	Intracellular traffic and organelles, life of proteins
